Government of Puducherry

***Medical Scribe:*** Abroad, any patient and doctor interaction needs to be documented for insurance purpose. As a patient meets a doctor, the doctor dictates a report on the meeting and this live feed needs to be listened to and documented accurately without errors. This is called medical scribe or virtual scribe or virtual assistant. This work is outsourced to India owing to good English skills among Indians. Any computer literate below age 45 is welcome in this highly lucrative home-based career.

***Earning Potential:*** Upon completion of the online medical scribe training home-based/office-based/part-time career opportunities are possible. As a fresher, the earning potential is anywhere between Rs. 22,000/- and Rs. 25000/-. Subsequent level is senior medical scribe who reviews, guides, and supervises, which has an earning potential of Rs. 30,000/- to 40,000/-.

***Training Info:*** Training is of two parts. First part involves self-paced online training on medical transcription in the e-learning style and comprises modules for American English Proficiency, American Medical Laws, & American Language of Medicine dealing with all the systems of the human body (Theory & Practice). This can be completed in 1-6 months' time depending on the candidate's caliber and dedication. ***The course can be taken from anywhere at any time as there is no time restriction. Once enrolled, you will be provided with a link, username, and password to login and study.***

Second part is simulated training by the client who offers employment. It involves simulated medical scribe sessions. This can be completed in 1-2 months' time. The course is designed such that candidates from both science and non-science backgrounds can easily understand and master medical terminology to become a successful medical scribe. After successful completion of the simulated sessions, the candidate is employed in the company as medical scribe.
